

# power of simplicity

The power of Honeywell's new WIN-PAK™ 2005 access solution brings simplicity to integration like never before. Integrate Digital Video, Alarm Monitoring, Photo-ID Badging, Elevator Control, Visitor Management, IT Networking, Guard Tour and more all through a single, simple-to-use software interface. Plus, no additional upgrades are needed to expand the system. WIN-PAK 2005 offers the ability to scale up

when you needed; it's possible to turn your access control system into a full-featured integrated application that is still easy to program and use. Whatever the size of your system, WIN-PAK 2005 can fit the need. It's just that simple.

## Honeywell

Experience the powerful features of an access control solution that makes integration with digital video simple.
