

# top performer

## Hard work deserves recognition.

Honeywell's NetAXS™ hybrid access control panel goes above and beyond in all that it does. A robust panel that's reliable and easy to use, NetAXS does the work for you—its built-in web browser allows system control from anywhere you have an Internet connection. With easy interface to all IT systems,

NetAXS is extremely versatile and is available in three configurations—Retrofit, Small and Large enclosures—that grow to meet the future demands of your system. Like a top performer, NetAXS gets the hard work done and makes it look easy.
