

# rev it up

## Get in the fast lane with WIN-PAK PRO Central Station.

Today, central stations are faced with sustaining growth and maintaining customer loyalty. To do that, you need to drive new recurring monthly revenue (RMR) opportunities that are easy and cost-effective. Honeywell's remote managed access control solution, WIN-PAK® PRO Central Station, is loaded

with value-added features like remote access control and alarm monitoring, web browser interface, photo-id badging and database management. Integrated with Bold Manitou, WIN-PAK PRO Central Station helps you increase your RMR and drive down your service and installation costs.

Bold Manitou with WIN-PAK PRO Central Station—it's what keeps our customers happy and keeps you cruising.
